- COMMUNICATION AND MEDIA Bachelor's Degree & Master UFV: Multimedia Technician - Universidad Francisco de Vitoria (Madrid).

> ABOUT ME

- Junior Front-end Developer with experience in design, communication, marketing and media.
- I really enjoy both sides, learning and teaching. Although I'm curious and autonomous I do believe teamwork is the key to success and I adapt myself easily.
- I feel really comfortable with React Js, but I'm also learning other JavaScript frameworks and libraries.
- I've got some Back-end basis and I'm open to learn any other programming language because another thing I enjoy is a challenge.
- I'm not afraid of documentation or speaking in public

> EXPERIENCE

2023 Freelance Front-end Developer

- I'm collaborating with a Design Studio, developing websites and other projects about Generative Design (reason why I learnt to use JavaScript library p5 js).
- Design and development of different projects, learning Figma (both for design and development) and headless CMS implementation with JavaScript frameworks and libraries.

2022 Front-end Developer - Bootcamp Adalab | Remote

- Layout: HTML5, CSS3, Sass, Responsive Design, Flexbox, Grid.
- JavaScript (ES6) and creation of a SPA with React.
- Developing a basic REST API with Node JS and Express JS.
- Created and managed databases with SQLite.
- Version control with Git.
- Project development under SCRUM framework and Agile philosophy.
- Development tools: Gulp, Visual Studio Code, Terminal, Zeplin, Slack, GitHub...

> WHAT AM I DOING RIGHT NOW?

- Learning TypeScript basis - Platzi (remote).
- Learning Angular JS basis - Platzi (remote).
- JavaScript 30 (Vanilla JS challenge).
- Learning GSAP and other JavaScript animation libraries.
- Codewars.
